PROFESSIONAL SUMMARY

GIS Professional with municipal and county experience managing and analyzing geospatial datasets to support planning, infrastructure, and environmental decision-making. Skilled in ESRI-based GIS Applications that streamline workflows, improve operational efficiency, and enable data-driven decisions. Experienced in automating GIS processes and training teams for consistent data collection and adoption.

WORK EXPERIENCE

February 2024 - March 2026

GIS Technician, City of Glens Falls, NY

- Served as the city's sole GIS technician and primary liaison to Warren County Planning, managing all spatial data in Glens Falls.
- Created 30+ web maps, apps, dashboards, and layouts consistently used internally and publicly to support planning initiatives and department operations.
- Wrote instructions and trained field crews in using Field Maps Mobile and implemented new workflows for hydrant flushing, hydrant repairs, and tree maintenance activities.
- Collected and managed 6,500+ points of signs, signals, streetlights, and utility poles using the Skadi 300 RTK GNSS Receiver.
- Produced land classification and impervious surface maps to support planning initiatives, regulatory compliance, and environmental analysis.
- Automated tree maintenance workflows with Arcade and ArcGIS API for Python, streamlining management of plantings and removals, aiding the City Engineer and Glens Falls Tree Commission in making data-driven decisions.

June 2023 - August 2024

University of Vermont Spatial Analysis Lab Tech, Burlington VT

- Fast paced environment, editing complex high-resolution tree canopy and land cover data under contract with the EPA, City of Phoenix, City of Indianapolis, NYC, and many others
- Utilized ArcGIS editing workflows to correct errors in automated outputs using LiDAR, NAIP, and orthophotos
- Automated tree cover mapping using LiDAR and machine learning techniques in eCognition.

KEY SKILLS

- | | | |
|----------------------|---------------------|------------------------|
| - ArcGIS Pro | - ArcGIS Dashboards | - Field Maps Designer |
| - ArcGIS Tasks | - ESRI Solutions | - GNSS Data Collection |
| - AutoCAD | - ArcGIS Notebooks | - ArcGIS Online |
| - Experience Builder | - Data Management | - ArcPy |

EDUCATION

May 2024

University of Vermont

BA in Geography, Minor in Geospatial Technologies
